FIXED BENCHES UNDER THE LOCKER

Benches under the locker are installed on the metal frame suitable to place a locker on its top. The said locker is screwed onto the frame.

Benches are available in a number of options and sizes, with different types of panels. Usually benches are provided with MDF panels; still, wooden varnished panels and PVC panels in white and grey colour are available at extra charge.

Benches are provided with levelling feet.

Benches frame can be painted with any RAL colour.

SKU	DIMENSIONS [mm] H x W x D (WEIGHT [kg])	ADDITIONAL DESCRIPTION
SZA 2D1000/2U00	2000 x 1000 x 420 (52)	

OFFICE AND FILE CABINETS

Office and file cabinets are divided into two sections:

1. in the top part of the office cabinet there are adjustable shelves, where 3 rows of A3 file binders can be placed. Perforated profiles located in the middle of this section are provided to adjust the shelves height every 25 mm.

Hinged doors in the office section have inner reinforcement profile; the doors are locked with a key lock with a hand wheel, with 3-point locking system.

Doors are provided with internal hinges, giving free access to the furniture interior,

2. bottom section of the cabinet provided with file drawers.

This section of the cabinet is provided with a special mechanism, so that only one drawer can be open at a time, which consequently prevents the cabinet from falling down.

Drawers are mounted on the telescopic ball slides with a stop, which prevents the drawer from falling out of the cabinet. Maximum load for each drawer is 50 kg.

Each drawer has a place for an identifier.

Drawers are locked with a single master lock, which locks them simultaneously.

Cabinets painted with all RAL colours.

Delivered cabinet is completely assembled, still shelves need to be mounted.

ADDITIONAL EQUIPMENT OPTIONS AVAILABLE IN FILE CABINETS AND MAP AND PLAN CABINETS

Levelling feet (4 pcs.)

Base unit 100 mm high

DESKS

Frames in the desks and additional units are made of full steel profiles with quadrangle cross-section, and are provided with levelling feet.

Table-tops are 25 mm thick and are laminated in grey colour.

Completely metal containers are provided with drawers, front side of which have flush handles. Drawers with safe edges are mounted on solid telescopic ball slides with a special mechanism, so that only one drawer can be open at a time; they are locked with a master lock.

Types of containers:

- 2-drawer container (02) for the table-top of: [H x W x D] 514 mm x 407 mm x 778 mm. Top drawer with the following useful dimensions: [H x W x D] 135 mm x 327 mm x 700 mm and extension of 500 mm, bottom drawer for suspension files with the following useful dimensions: [H x W x D] 280 mm x 327 mm x 718 mm and extension of 500 mm.
- 2-drawer container (02) for additional unit of: [H x W x D] 514 mm x 407 mm x 578 mm. Top drawer of the following useful dimensions: [H x W x D] 135 mm x 327 mm x 500 mm, bottom drawer for suspension files with the following useful dimensions: [H x W x D] 280 mm x 327 mm x 518 mm and extension of 500 mm.
- 3-drawer container (03) for the table-top of: [H x W x D] 514 mm x 407 mm x 778 mm. 3 drawers with the following useful dimensions: [H x W x D] each of 135 mm x 327 mm x 718 mm and extension of 500 mm. Drawers in the container are locked with a key-lock.
- 3-drawer container (03) for additional unit of: [H x W x D] 514 mm x 407 mm x 578 mm. 3 drawers with the following useful dimensions: [H x W x D] each of 135 mm x 327 mm x 500 mm. Drawers in the container are locked with a key-lock.

Table and additional units are delivered in parts and need to be assembled.

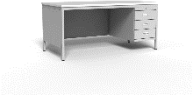

Delivered containers are completely assembled, still they need to be screwed to the table or additional unit frame.

Frame in the tables, additional units and containers can be painted with any RAL colour.

1 internal drawer of the following dimensions [mm]: external 154 X 384 X 517, internal 142 x 350 x 495 each, in hinged door locker		

TYPES OF TOPS IN LIGHT WORKBENCHES		
	width 600	width 1200
Top coated with waterproof varnish with increased abrasion resistance.		
Top made of plywood coated with corrugated rubber		
Top made of plywood covered with inox sheet metal		
Top made of plywood covered with galvanised sheet metal		

HEAVY-DUTY WORKBENCHES

Reinforced frame is made of full profiles 40 x 20, which are 1.50 [mm] thick, and 40 x 40 which are 2.0 [mm] thick,

- lockers with hinged doors locked with a key lock,

- Drawers are mounted on the telescopic ball slides (with a stop, which prevents the drawer from falling out of the cabinet) providing smooth and easy extension.

Drawers are provided with a patented mechanism, with which only one drawer can be open at a time, which consequently prevents the cabinet from falling down.

Drawers are locked with a master key-lock.

- each drawer is provided with a sticker to mark its content.

- table top is made of plywood 40 [mm] thick +/- 4 [mm],

- workbench is provided with levelling feet.

Thanks to massive structure, workbenches can be provided with a number of optional elements, with no risk for their stability.

To make the furniture even more functional it is additionally provided with power sockets, lockers with drawers or shelves, or containers.

Frame in the workbenches can be painted with any RAL colour.

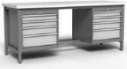

Delivered workbenches are completely assembled.

ADDITIONAL ELEMENTS FOR STC K 1500 AND STC K 2000 WORKBENCHES		
29.		A lighting panel for 1500 workbench with 2 x 36 W - external dimensions [mm]: 420 H x 1287 W x 500 D - alternatively LED 2 x 14,5 W
30.		A lighting panel for 2000 workbench with 2 x 58W - external dimensions [mm]: 420 H x 1907 W x 500 D - alternatively LED 2 x 20 W
31.		Perforated wall (2 panels x 500 mm H) - external dimensions of the wall [mm]: 1220 H x 1302 W x 45 D; usable dimensions of the panels [mm]: 2 x 496 H x 629 W
32.		Perforated wall (3 panels x 500 mm H) - external dimensions of the wall [mm]: 1220 H x 1934 W x 45 D; usable dimensions of the panels [mm]: 3 x 496 H x 629 W
33.		Perforated wall (2 panels x 900 mm H) - external dimensions of the wall [mm]: 1620 H x 1302 W x 45 D; usable dimensions of the panels [mm]: 2 x 896 H x 629 W

34.		Perforated wall (3 panels x 900 mm H) - external dimensions of the wall [mm]: 1620 H x 1934 W x 45 D; usable dimensions of the panels [mm]: 3 x 896 H x 629 W
35.		A locker mounted on the perforated wall, with internal shelf - external dimensions of the locker [mm]: 480 H x 632 W x 272 D; usable dimensions [mm]: 250 D
36.		A shelf mounted on the perforated wall - external dimensions of the shelf [mm]: 630 W x 372 D; usable dimensions [mm]: 350 D

FREE-STANDING WORKSHOP CUPBOARDS

Workshop cupboards with drawers have solid reinforced structure. Cupboards can be provided with drawers of different size. The drawers interiors are subject to custom-made arrangements with metal partitions, making it easy to store tools and small objects, or optionally can be provided with foam inserts.

Drawers are mounted on the telescopic ball slides (with a stop, which prevents the drawer from falling out of the cabinet) providing smooth and easy extension.

Cupboards are provided with a patented mechanism, with which only one drawer can be open at a time, which consequently prevents the cupboard from falling down.

Drawers and cupboards are locked with a master key-lock.

Cupboards are provided with levelling feet.

Cupboards are painted with all RAL colours.

Delivered cupboards are completely assembled.

STANDS FOR WORKSHOP CONTAINERS

Reinforced metal frame makes the stands for containers particularly stable and resistant to heavy loads. The frame is made of full steel profiles 20 x 40, which are 1.50 [mm] thick, other parts of the frame is made of 2.0 [mm] thick metal sheet. Metal hooks, onto which durable, polypropylene containers of different size are hung, are screwed to the frame.

Containers are made of durable polypropylene, which make them impact resistant, as well as resistant to most chemical compounds, acids and machine oil. Containers can be provided with labels and compartments.

Stands are single- or double-sided, and are equipped with levelling feet. Optionally stands can be provided with 4 wheels of 100 mm diameter (front wheels with brakes) to make their transportation easier.

Our products are covered by 24-months warranty, whereas the locks are covered by 12-months warranty.

Stands can be painted with all RAL colours.
They need to be assembled.

Extra shelf for storing documents (does not apply to SzK1)

HIGH LAPTOP CABINETS

In multi-tier laptop cabinets, every compartment can be used separately, which is why they are best suited to hotels, conference rooms, or training facilities. Each computer is placed in a separate, ventilated compartment, which can be also fitted with a power socket.

Standard equipment includes:

- welded structure of the laptop cabinets is made of full profiles,- each compartment is locked with a change key with 1-point locking, being a part of master keying system,
- each compartment door is provided with a place for an identifier,
- to ensure the best possible airflow, cabinets are provided with ventilation holes inside the compartments and on the back wall,
- openings in the back and side walls can be used to mount the cabinet on a wall, which eliminates the risk of falling down.

Cabinets come in two versions: a variant without electrical connections and a version that can be used at ~230V, which can simultaneously charge the batteries of all devices stored inside.

Our products are covered by 24-months warranty, whereas the locks are covered by 12-months warranty.

Cabinets painted with all RAL colours.

Delivered cabinets are completely assembled.

	SKU	DIMENSIONS [mm] H x W x D (WEIGHT [kg])	ADDITIONAL DESCRIPTION
	SzLP 10K1	1800 x 400 x 500 (58)	No power supply

LAPTOP CARTS

Low cabinets with hinged doors and carts for laptops, tablets, mobiles, etc.

Low cabinets and carts are designed for safe storing and charging of electrical devices.

They are offered as 1-, 2- or 3-column cabinets; the number of power strips corresponds the number of columns.

- massive structure with double hinged doors,
- doors are mounted on solid external hinges and are locked with a key lock with a hand wheel, with 3-point locking system,
- the cabinet is provided with one 230 V 10A power socket; main switch is placed on the side wall of the furniture,
- power strips (whose number corresponds to the number of columns) are placed inside the cabinet,
- inside the cabinet there are multi-tier compartments, each of which has a dedicated separate socket on the power strip, hence all devices stored in the cabinet can be simultaneously charged,
- a top made of laminated plate in grey colour (25 mm thick) is mounted on the cabinet,
- handles for cabinet transportation are located on both side walls,
- the cabinet is provided with 4 casters, 2 of which have brakes,
- side walls of the cabinet are provided with ventilation openings to cool electronic devices stored inside.

All carts are granted declaration of conformity with 2001/95/EC Directive on general product safety.

Our products are covered by 24-months warranty.

Cabinets painted with all RAL colours.

Delivered cabinets are completely assembled, still casters need to be mounted.
