# SCHOOL LOCKERS

Locker cabinets are an integral part of the school furniture range, finding use mainly in public places such as schools, locker rooms, libraries, or wherever there is a need for several people to store items individually.

They are available in a variety of configurations, including several, a dozen or tens of lockers, available in various sizes.

There is an unlimited choice of equipment, such as different types of doors, locks, shelves, roofs, benches, leveling feet, numbering, printing, etc., which allows any configuration of the furniture according to the individual needs of users.

## PRIORITIZE FUNCTIONALITY.

It is worth noting that the offered locker cabinets are not only practical and functional solutions, but also furniture that can introduce an element of aesthetics and organization into public spaces, while ensuring security and order.

# SLIM LOCKER CABINETS

## Standard equipment:

- spot-welded cabinet construction,
- a special door profile ensures exceptional door rigidity,
- contemporary door perforation and adhesive identifier,
- Each compartment is equipped with a bar and two clothing hooks.
- There are openings on the side walls of the cabinets that enable multiple cabinets to be fastened together.
- The cabinets are secured with a key lock featuring single-point locking.

# SCHOOL CHANGING ROOM LOCKERS

Clothes cabinets, thanks to the use of functional solutions such as shelves, benches, canopies, bases, etc., not only make it easier to store clothes, but also introduce practicality to everyday use.

We also offer closet cabinets with built-in benches and dedicated space for shoes or other accessories. They are ideal for smaller rooms, ensuring optimal use of the available space.

Clothes cabinets are available in a variety of designs, including one-, two-, three- and four-door models, in various sizes.

## CUSTOMIZE YOUR LOCKER

Personalizing furniture with UV printing adds original character and allows you to create both a practical, as well as an aesthetic element of the interior.

# SPORTS EQUIPMENT LOCKERS

Metal storage cabinets for sports equipment are designed to safely store small accessories and exercise equipment (such as balls, skipping rods, ropes, sashes, gymnastic instruments, etc.).

Our offer includes many models of sports cabinets, which are tailored to a variety of needs. This allows you to optimally fit out your interiors with furniture that will suit your individual preferences.

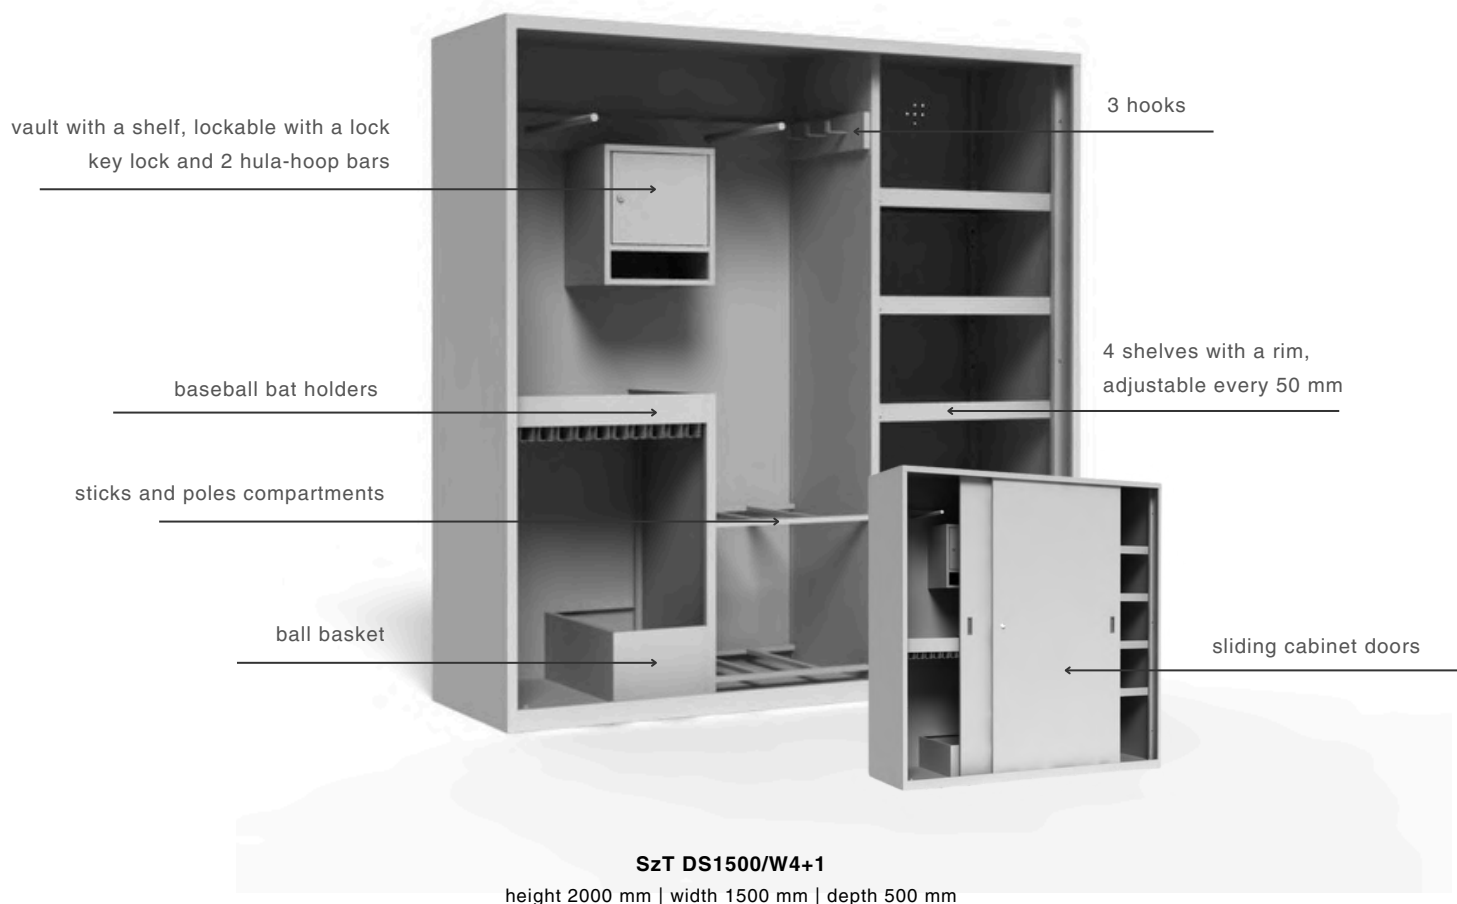

Sports lockers are available with opening or sliding doors, offering a wide range of solutions that are tailored to your requirements and the specific location in which they will be placed.

# BENCHES WITH COAT RACKS

Bench-hangers are an effective storage solution for outerwear, allowing for optimal use of limited space. They are used in schools, corridors and other social spaces, providing an alternative where there is not enough space for traditional closet cabinets.

## OFFICE AND FILE CABINETS

In our range of products, we offer a variety of filing cabinets and filing cabinets, they are perfect for offices, bureaus, registries, archives and other places where safe storage of documents is necessary.

Various models and equipment variants are available, and on request we produce non-standard cabinets, tailored to specific needs.

They guarantee functional storage of a variety of documents - from office to accounting or personal documents - in standardized formats, both vertically and horizontally

An additional highlight is the possibility of any UV printing on the wing doors of the filing cabinet, which allows you to harmoniously fit them into the interior design or make them a decoration.

## UTILITY LOCKERS

Utility cabinets are a variation of practical social furniture, enabling efficient storage of clothing, cleaning supplies and small cleaning equipment such as brushes, buckets, mops and wipes.

We offer various models of utility cabinets, with differentiated interiors. Thus, it is possible to adapt the usable area of the closet to the individual needs of the user.

## PSO RECYCLING BINS

Metal containers for waste separation are ideal for industrial and commercial environments, as well as various public spaces.

All containers are equipped with a frame for hanging bags, or can be adapted for mounting a metal container, configurable according to individual needs.

# UTILITY LOCKERS

## Standard equipment:

- spot-welded construction of the utility cabinet is founded on closed profiles,
- a special profile of double doors guarantees high rigidity of the door,
- the doors are equipped with air vents,
- on the side walls of the cabinet there are openings for fastening several cabinets to each other,
- the cabinet is locked with a key lock with three-point locking.
